Company Profile

Description	: With the commitment to pursue our vision to be the largest and most advanced integrated aquaculture company in the world, PT Central Proteina Prima Tbk (CP Prima) was successfully incorporated in Indonesia on 30th April 1980, based on the Capital Investment Law No.6 year 1968 and amended by law No. 12 year 1970. After the completion of all notary and law deeds, we launched it with pride to public and started our business commercially on 18th August 1980, four months afterwards. Looking at the high market opportunities that the world may serve us, we started our business focusing on processed shrimp products, aquaculture products, feeds, as well as probiotics, producing high quality and innovative products for both domestic and international markets. We have also supported the local farmers by providing the best quality feeds and aquaculture products for better results. Time by time, we expanded our business, starting from stepping into the Asian, Australian, European to penetrating into US markets. Numerous product safety certificates and awards, both from our homeland, Indonesia, and from other continents such as US and Europe, have been received within over they years.
