

RAHAYU GEMILANG SAKTI,PT

Jl.Raya Kalisuren Nings Residence Blok.F 7-8 Kalisuren Tajurhalang, Bogor,
WEST JAVA - INDONESIA

Company Profile

Description

: An international trading firm with Indonesian registration, PT. RAHAYU GEMILANG SAKTI (RGS), focuses on the distribution of ready-to-use herbal products, cosmetics, skincare, and bodycare items as well as some agricultural, plantation, and general commodities. Our business is operated by experts, and our staff is dedicated to providing our clients with sourcing services and produced goods that are ready for use. We buy goods directly from farmers, manufacturing plants, and other massive networks. As an official distributor of skincare, herbal, cosmetic, and bodycare products made from Indonesian herbal plants with GMP and ISO factory certificates so that we are prepared to distribute them in the international market with standards that are in compliance with international standards as well as agricultural and plantation products, we have built a reputation for quality, trust, and consistency. Coconut, cilembu sweet potatoes from Bogor, and tea from Cianjur are just a few examples of the agricultural and plantation products that we are prepared to export. West Java, Central Java, and Sumatra are also very competent areas to produce good agricultural and plantation products. Currently, from the target of 1000 products in 2030, we have distributed 150 product items every day with a fairly high market demand; one of these is VCO (Virgin Coconut Oil) products, and as a result, our factories for production have increased from just 1 factory in 2015 to 4 factories spread across West Java and 1 factory in Central Java by the end of 2022. Our products, like VCO, are high-quality solutions for a wide range of consumers. Since ancient times, VCO has been regarded as an oil with numerous advantages for both health and beauty. In Indonesia, every family is required to keep VCO on hand at all times for a number of reasons. We firmly believe that the rest of the world, except our own, may experience the goods we create and thereby contribute to the benefits of Indonesian crops for society at large, regardless of regional boundaries. Last but not least, we are pleased to launch a partnership in order to create profitable business alliances and offer goods made from processed herbal plants, agricultural and plantation products, and animal husbandry in the form of Etawa goat's milk, which has been upgraded to powdered milk and other super food additives. We supply the greatest VCO (virgin coconut oil), made from the best coconuts from Indonesia, to the international market. Do not hesitate to get in touch with us if you have any questions. Many thanks

Business Type

: Exporter and Producer

Main Product

: Herbal Skincare Cosmetics

Year of Establishment

: 2018

Export Percentage

: -

Scale of Business : Small
