

GLOBAL KEPRI INDONESIA,PT

Tiban Lama No. 21, Batam,
RIAU ISLAND - INDONESIA

Company Profile

Description

: PT Global Kepri Indonesia was established on October 7th 2020, Focus on food security and clean and cheap energy. producing agricultural products, managing agricultural waste into fertilizer and valuable products, we encourage farmer productivity. Commitment to renewable energy with solutions without greenhouse gas emissions. Holistic innovation and social responsibility provide a positive impact. We are committed to sustainability, delivering innovative solutions for a sustainable future. The business world prioritizes profits, often ignoring environmental health. Problems such as the use of plastic and poor waste management result in greenhouse gas emissions. CO2 and CH4 drive climate change, exacerbate disasters and threaten biodiversity. Extreme climate events impact global food security, causing crop failures, rising prices and the risk of famine. Natural disasters claim lives, damage ecosystems, and increase disease rates To overcome this, it is necessary to reduce GHG emissions, mitigate climate change, and increase community resilienc. Global coordination is critical to slowing climate change and protecting the environment. PT Global Kepri Indonesia is here to provide solutions and is committed to being an agent of world change as a mecca for companies creating environmentally friendly products in the world, this is our promise to the world. PT Global Kepri Indonesia focuses on agriculture, plantations, procurement of animal feed, creation of renewable electrical energy and creation of clean water with technology adopted to eliminate greenhouse gas (GHG) emissions. For example, we produce palm shell waste which we have successfully marketed as a tool for peeling palm kernels as cheap animal feed, from palm shell waste we have succeeded in cooking it to be used as raw material for biomass power plants, and we have also been given the trust of the Indonesian government to manage industrial waste. other. such as we have succeeded in converting textile waste/cut cloth waste into board products which are originally made from wood and there are many other products that we produce from agricultural waste and also create renewable electrical energy that is cheap and environmentally friendly. We are committed PT. Global Kepri Indonesia is a world leader in food security, feed, renewable electrical energy and clean water supply with a focus on eliminating greenhouse gas emissions

Business Type

: Exporter and Producer

Main Product

: Coconut Derivative Products

Year of Establishment

: 2022

Export Percentage

: 25 %

Scale of Business

: Medium

Email

: globalkepriindonesia@gmail.com

PIC : Egi Hendricek
Telephone : Direktur
Verify Date : 22 February 2023
Kategori Produk : Agriculture, Energy, Home Appliances

Trade Capacity

International Commercial Terms : FOB
Terms of Payment : T/T
Export Year : 2022
Export Percentage : 25 %
Total Annual Revenue : 137.500
Export Market : Mexico
Export Port : TANJUNG PRIOK

Production Capacity

Factory Address : Tiban Lama No. 21
Total Manpower : 8
Production Capacity : Own Production : 25,00 %, Outside Production: 75,00 %
